TECHNICAL SKILLS

Programming Languages: Java (proficient), Python, C/C++ , JavaScript

Core Competencies: Data Structures, Algorithms, Software Design, Problem Solving

Full Stack Development: React, Node.js, Express, GSAP

Database: MongoDB, MySQL

Tools: Git, GitHub

Communication Skills: English, Hindi, Marathi

Core Subjects: Data Structures, Operating Systems, Database Management Systems, Machine Learning

WORK EXPERIENCE

Univoc Foundation

Noida

Web Development Intern

Nov 2024 - Jan 2025

- Built scalable web applications using the MERN stack and optimized for cross-device responsiveness.
- Developed RESTful APIs and applied security best practices for data integrity and system reliability.
- Collaborated with designers to refine UI/UX and ensure a consistent design system.

Cloud Counselage Pvt Ltd

Mumbai

Full Stack Developer Intern

June 2024 - Sep 2024

- Assisted in developing full-stack applications with a focus on scalability and maintainability.
- Implemented responsive designs and streamlined workflows for an enhanced user experience.
- Used Git for collaborative version control and codebase maintenance.

PROJECTS

Job Portal - [GitHub](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux (MERN)

2024

- Engineered a full-stack web application enabling users to explore, apply, and track job applications while allowing recruiters to seamlessly post and manage job listings. Executed a responsive and accessible front-end interface with React, ensuring optimal performance across devices.
- Designed and integrated RESTful APIs with Express and Node.js for robust server-side logic, and applied MongoDB for efficient data management. Enforced Git and GitHub for version control, code reviews, and collaborative development practices.

Advanced E-Commerce Website - [GitHub](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux (MERN)

2024

- Designed and developed a comprehensive e-commerce web platform featuring real-time cart updates, product filtering, order management, and secure user authentication. Implemented JWT-based authentication and authorization to ensure secure transactions and user data protection.
- Leveraged Redux for global state management, improving performance and simplifying the development of scalable frontend features. Created responsive UI components with React.js and CSS3, ensuring optimal user experience across desktop and mobile devices.

EDUCATION

Sandip Institute of Technology and Research Centre

Nashik, Maharashtra

B.E. in Computer Engineering — CGPA: 9.14 (Third Year)

2022 - 2026

ACHIEVEMENTS AND LEADERSHIP

- Class Representative at Sandip Institute of Technology and Research Centre (Oct 2023 - May 2024): Facilitated communication between 60 classmates and faculty, resolving student concerns and improving engagement by 20%.
- Selected as one of the top 30 finalists in Smart India Hackathon (Aug 2024) at Institute Level for demonstrating problem-solving skills and innovative solutions.
- Selected as a finalist at the State Level DIPEX Project Competition (April 2025) at COEP Pune, Maharashtra for presenting an innovative and impactful engineering project in the healthcare industry.
